Thoughtfully designed and featured to ensure maximum safety in hotels, independent living, and other lodging with strict safety requirements:

SAFETY FIRST
AUTOMATIC SHUTOFF AFTER
30 MINUTES OF
INACTIVITY

30-MINUTE AUTO SHUTOFF

Each burner shuts down after 30 minutes of user inactivity

1-MINUTE SAFETY CUTOFF

If the power button is activated without any further activity, the cooktop shuts down

OVERFLOW PROTECTION

Power shuts down if liquid or wet cloth touches the controls, allowing you to resume once dry

CHILD LOCK

Once settings are selected, activate the child lock to prevent unsupervised adjustments

RESIDUAL HEAT INDICATORS

Indicator lights warn that the surface is still hot

ADA COMPLIANT DESIGN

Up front touch button controls meets ADA guidelines for user accessibility

PLUS:

- Perfectly sized to fit common cutouts
- Smooth glass surface for easy cleanability
- Digital controls with no removable external knobs
